PROFILE

Analytical and detail-oriented Data Science and Systems professional with practical experience in data analysis, business intelligence, reporting, data management, and administrative operations. Skilled in collecting, cleaning, analysing, and visualising data to generate actionable insights and support informed decision-making. Proficient in Python, R, SQL, Power BI, Excel, and statistical analysis, with experience applying data-driven approaches to enrolment, financial, operational, and environmental datasets. Strong ability to translate complex information into clear reports, dashboards, and recommendations, with an interest in developing intelligent data solutions that improve organisational processes and decision-making.

EDUCATION

BSc Honours Degree in Data Science and Systems
University of Zimbabwe | 08/2021 – 06/2025
Degree Class: 2.1 (Upper Second Class)

GCE Advanced Level
Dzivarasekwa 1 High School | 2019
3 passes: Pure Mathematics, Business Studies and Accounting

GCE Ordinary Level
Authentic Christian College | 2017
8 passes: 7 A's, 1 C, including Mathematics and English

WORK EXPERIENCE

Administrative Assistant

Claremont Business School | Harare, Zimbabwe
08/07/2026 – Present

- Analysed student enrolment data across programmes and intakes to identify trends, programme performance, and year-on-year changes.

Data Analyst Intern

MacroEdTech | Remote, India
08/2025 – 02/2026

- Conducted data analysis to uncover significant trends.
- Collected, cleaned, and preprocessed large datasets for analysis.
- Implemented machine learning models to improve predictions.

- Consolidated and cleaned enrolment records from multiple Excel files to support analysis and management reporting.
- Developed Excel-based analyses and planned Power BI dashboards to monitor enrolment, programme, and financial performance.
- Supported data capturing, reconciliation, reporting, and record management using Excel, Sage, and QuickBooks.

Data Analyst Intern

Dataverse Africa | Remote, Nigeria
02/2025 – 04/2025

- Analysed trade, customs, and agricultural datasets, producing insights.
- Built predictive models for health risks.
- Conducted literature reviews and research analytics on African data gaps.

Monitoring & Evaluation Intern

Environmental Management Agency (EMA) – Head Office | Zimbabwe
09/2023 – 08/2024

- Developed and implemented data collection protocols for environmental data.
- Conducted data cleaning and quality control to ensure accuracy and consistency.
- Analysed data using statistical and machine learning techniques to identify trends and insights.
- Created interactive dashboards and reports to communicate findings effectively.
- Contributed to monitoring frameworks to strengthen evaluation processes.
- Collaborated with technical experts to interpret data and provide actionable recommendations.

PROJECTS

Dissertation – ZiG Exchange Rates
Developed machine learning models including Random Forest, XGBoost, and LSTM,

alongside econometric models including ARIMA and SARIMA, to forecast exchange rates, detect structural breaks, and assess volatility. **Distinction awarded.**

Data Gap Initiative
Analysed African healthcare, agriculture, and education datasets; developed visualisations and recommendations to support data-driven solutions.

News Scraper & Categorization System
Built a system to scrape and automatically categorise news articles, improving information organisation and accessibility.
